Professional summary

Passionate and detail-oriented aspiring Software Developer with skills in Full-Stack Web Development, Flutter, Dart, Python, and database management. Experienced in developing responsive web applications, user-friendly mobile applications, and innovative academic projects. Interested in Artificial Intelligence, Machine Learning, and emerging technologies, with strong problem-solving, analytical thinking, and adaptability. Currently pursuing a B.Tech in Information Technology, seeking opportunities to apply technical expertise and contribute to impactful real-world solutions.

Experience

Flutter Application Developer

Nov 2025 – Mar 2026

Acadamic Project- Govt. Engineering College Idukki · Idukki,Keralam,India

- • Developing a cross-platform college bus tracking application using Flutter and Dart.
- • Implementing real-time GPS tracking and Estimated Time of Arrival (ETA) functionality.
- • Integrating Firebase for authentication, backend services, and real-time data synchronization.
- • Designing responsive user interfaces and role-based access for students, drivers, and bus administrators.
- • Collaborating on system architecture, application development, and feature integration.

Education

Higher Secondary

Nov 2021 – Mar 2023

St.Antony's HSS Moorkanad

Computer Science · 88%

B.Tech

Sept 2023 – Present

Government Engineering College Idukki

Information Technology

Skills

Technical: Python · Dart · Flutter · HTML5 · CSS3 · JavaScript · Full-Stack Web Development · Responsive Web Design · Firebase · SQL · Git · GitHub

Professional Skills: Communication · Team Coordination · Leadership · Teamwork · Problem-Solving · Critical Thinking · Time Management · Adaptability · Collaboration · Event Coordination

AI/ML & NLP Developer

Aug 2026 – Present

Acadamic Project-Govt.Engineering College Idukki · Idukki, Keralam,India

- • Developing Adayaalam, an AI-powered Malayalam Named Entity Recognition (NER) platform using Natural Language Processing and Deep Learning.
- • Exploring transformer-based language models, including MuRIL, IndicBERT, and XLM-RoBERTa, for Malayalam text processing.
- • Implementing text extraction, preprocessing, tokenization, and named entity identification workflows.
- • Working on the identification and classification of entities such as people, locations, and organizations from Malayalam documents.
- • Contributing to system architecture, model research, and the development of an entity-centric information retrieval platform.

Media and Communication Coordinator

Jan 2025 – Mar 2026

TinkerHub GECI · Idukki,Keralam,India

- Coordinated media-related activities and managed content requirements for community initiatives.
- Facilitated communication and collaboration among team members to organize creative projects.
- Supported social media campaigns, promotional activities, and digital content initiatives.
- Collaborated with creative teams to ensure timely planning and delivery of media content.
- Contributed to content planning, team coordination, and effective information sharing.
- Demonstrated strong interpersonal communication, teamwork, creativity, and organizational skills.

Creative & Digital Media:

Projects

Way2College-Real Time College Bus Tracking System

Flutter Application Developer

Flutter · Dart · Firebase · Google Maps API · REST API · Git · GitHub

github.com/duglus6ind/way2collage

- Developing a real-time college bus tracking application designed to improve transportation management and student convenience.
- - Implementing GPS-based live bus tracking and Estimated Time of Arrival (ETA) functionality.
- - Designing role-based interfaces for students, drivers, and bus administrators.
- - Integrating Firebase services for authentication and real-time data management.
- - Developing features including bus route management, emergency alerts, and bus pass verification.

Alexa Voice Assistant

Developer(solo project)

Python · SpeechRecognition · pyttsx3 · Wikipedia API · pyjokes · pywhatkit

github.com/duglus6ind/alexa-voice-assistant

- Built a Python voice assistant that takes spoken commands and replies with speech
- Integrated speech recognition and text-to-speech (SAPI5) for hands-free interaction
- Added features like Wikipedia lookups, jokes, and YouTube/web search via pywhatkit

Achievements

Media & Coordination

Contributed to college community initiatives by coordinating media activities, facilitating team communication, and supporting creative projects and social media campaigns.

Winner In Photography Contest

Secured Third Prize in the Photography Competition at Kavettam 2026, the college arts festival organized by Dheeravam College Union, representing the Information Technology Department, Government Engineering College Idukki.
